Professional Profile

Web developer from Colombia with hands-on experience since 2021, specializing in backend development for mobile and web applications. Proficient in **JavaScript**, **Node.js**, **React**, **MongoDB**, and **Express**, with a passion for crafting innovative solutions leveraging modern technologies. Seeking to contribute expertise and drive success in dynamic software development teams.

Professional Experience

Full-Stack Developer | Kloustr Labs S.A.S

April 2021 – February 2022

- Designed and developed mobile and web applications, ORM systems, and ERP solutions, tailored to meet diverse client requirements.
- Delivered interactive and scalable applications across industries, focusing on usability and technical ingenuity.
- Conducted in-depth research to propose and implement cutting-edge development strategies.

Tech Stack: React Native, ReactJS, Angular, NestJS, MongoDB, JavaScript, TypeScript

Webmaster (Freelance) | PFS Realty

December 2022 – February 2023

- Maintained and optimized company landing pages using **Next.js**, ensuring responsive design and seamless user experience.
- Integrated third-party APIs into platforms like Follow Up Boss, enhancing lead management and automation.
- Developed a Node.js microservice to automate data collection, parsing, and delivery for researchers.

Tech Stack: ReactJS, WordPress, MongoDB, NestJS

Web Developer | Gradiweb Web Agency

February 2022 – December 2022 / February 2023 – February 2024

- Built and maintained e-commerce platforms, utilizing **Next.js** and integrations with Shopify, Recharge, and Mailchimp.
- Participated in workflow discussions, proposing innovative ideas to streamline development processes.

- Ensured functionality and aesthetic quality across platforms, tailoring solutions for diverse client needs.

Tech Stack: ReactJS, Hydrogen, NestJS, Liquid, Shopify, MongoDB, JavaScript, TypeScript

Web Developer | Power Digital Marketing

March 2024 – Present

- Develop and implement customized applications for B2C and B2B Shopify stores, enhancing functionality and expanding platform capabilities.
- Maintain and develop new requirements for WordPress websites, ensuring performance, responsiveness, and adherence to client specifications.
- Provide accurate task and project estimations, ensuring timely delivery while meeting client expectations.
- Foster strong communication with clients to understand their needs, present solutions, and maintain transparency throughout the development process.
- Utilize design tools like **Figma** to collaborate on UI/UX enhancements and ensure visually appealing results.
- Employ QA tools such as **Cypress** to conduct automated testing, ensuring reliability and quality in all deliverables.
- Innovate solutions to overcome Shopify's limitations, delivering unique features tailored to client requirements.
- Support multi-language and multi-market stores to optimize global reach.

Tech Stack: ReactJS, Liquid, Shopify, JavaScript, REST API, PHP, WordPress, Figma, Cypress

Education

Technologist in Analysis and Development of Information Systems

2020 – 2023

Key Skills

- Proficient in **JavaScript, TypeScript, Node.js, React, MongoDB, and Express**
- Expertise in e-commerce platforms such as **Shopify** and **WordPress**, including custom feature development and optimization
- Strong skills in task and project estimation, ensuring accurate timelines and resource allocation
- Effective communication with clients, fostering collaboration and ensuring alignment with project goals
- Skilled in UI/UX design collaboration using tools like **Figma**

- Proficient in quality assurance and automated testing with tools like **Cypress**
- Experience with API development, third-party API integration, and multi-language/multi-market store support
- Focused on automation, scalability, and innovative problem-solving
